DETAILED ACTION

Allowable Subject Matter

Claims 11, and 13-30 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor suggest, in the claimed combination, a buckling actuator wherein a stationary member (anchor) which is disposed on a substrate and supports a movable member; a supporting beam which is connected between the stationary member (anchor) and the movable member in a buckling manner to support the movable member at one of two switch positions selectively, at least one of a connecting section between the stationary member (anchor) and the supporting beam, and a connecting section between the movable member and the supporting beam is provided with a rotatable supporter that includes at least three arm portions extending in directions that are different from one another supporting the supporting beam in a rotatable manner about an axis line extending substantially perpendicular to the substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
